Any form of modern slavery or human trafficking in our operations or our supply chains will not be tolerated by our company. We are committed to diversity and tolerance in the workplace and demonstrate appreciation for all employees regardless of age, ethnicity and nationality, gender and gender identity, physical and mental ability, religion and belief, sexual orientation and social background.

The Charta of Diversity is an initiative to promote diversity in companies and institutions. By signing the Charta of Diversity, we are sending a clear signal for diversity and tolerance in the world of work and signaling our appreciation of all employees regardless of age, ethnic origin and nationality, gender and gender identity, physical and mental abilities, religion and worldview, sexual orientation and social origin.

# STAFF

## GOAL

The goal of Pond Security Service GmbH is to create and promote a productive and respectful environment at all times in which employees can work and advance. Our aim is to promote personal development to the greatest extent possible and to make optimum use of the talents and abilities of our employees.

Management welcomes the open and active exchange of ideas. Employees are promoted and/or compensated on the basis of their performance. Any discrimination or harassment based on origin, gender, age, religion, sexual orientation or ethnicity will not be tolerated.

## SALARY STRUCTURE

Pond Security Service GmbH offers its employees a transparent and adequate salary structure. Not least because of the difficult situation on the labor market, which is characterized by a shortage of skilled workers and the resulting fierce competition for high-performing employees, there is a need to offer interesting incentives to potential employees. Practically, in the specific context of the security services industry, this means that Pond Security often pays above-standard wages and, where possible, distributes other monetary benefits such as vacation and Christmas bonuses and performance-based bonuses to motivate its workforce to be fully engaged and committed and to encourage long-term employment.

As a member of the German Security Association (BDSW), Pond Security also actively contributes to ensuring that wages in particular adequately reflect the high demands placed on security personnel.

## CAREER MANAGEMENT

Instruction, education and advanced training courses pursue the goal of making the required knowledge accessible to employees and adapting information, once acquired, to the state of the industry.

We consider it very important to support our employees in their personal and professional development. We aim to address this important aspect through feedback discussions, career plans, specific training offers and measures to reduce staff turnover.

## CHANGE MANAGEMENT

The security industry in particular is subject to constant change in many areas, be it legal, technical, organizational or personnel. Only together can we adapt to this change and master the new challenges. This requires good communication at all levels, but also the willingness of everyone to change and improve.

”
